

MANAGED IT INFRASTRUCTURE SOLUTIONS FOR BUSINESSES

IDC SOLUTIONS

- Colocation • Managed Hosting
- InstaCompute

As your business expands across multiple cities, states or even countries, you may not need or want to take on the expense of establishing IT infrastructure and scaling it on an ongoing basis. This is where you need a reliable partner who can build, manage and scale up as per your requirements, with controlled costs.

DEPENDABLE GLOBAL CONNECTIVITY

Our IT infrastructure services are offered in association with Tata Communications Limited. Our services provide the flexibility needed to meet growing business demands without increasing Total Cost of Ownership (TCO).

All our facilities operate under the highest standards, featuring clean and precisely regulated power, monitored cooling, and physical security for all server, storage, and networking equipment. In addition, our facilities are fully integrated with our high-speed global IP network to give you high-traffic capacity and fast, dependable global reach no matter where your offices are located. We also strictly adhere to stringent international standards for redundancy to ensure dependable, fail-safe performance.

- With the on-demand feature, you can market quickly through instant service availability
- You can improve your customer satisfaction with better performance and reduced latency
- You can save time with our turn-key solution including hardware, operating systems and managed databases – all coupled with daily, proactive system management
- You can save costs from shared infrastructure investments
- No capital expenditure even when you want to scale up your requirement
- Best in class Service Level Agreements (SLAs) and ISO 20000, 27001 and 14001 certifications ensure you get high standards for infrastructure operations management

BUSINESS ADVANTAGE

COLOCATION, MANAGED HOSTING AND INSTACOMPUTE

Colocation facilities provide space, power, cooling, and physical security for server, storage, and networking equipment of businesses. With our Colocation services you get access to more than 1 million square feet of data center space in 44 locations around the world. Our data centres have been awarded certifications for high quality and efficient operations. In addition, our service delivery and management processes adhere strictly to industry-standard ITIL service delivery guidelines, ISO and IEC operational specifications.

Our Managed Hosting solution ensures that you have complete control over your critical business data and

applications. It provides a secure, reliable and flexible hosting and storage environment to support your dynamic business needs through a wide range of predefined, dedicated computing resources with customized resources.

InstaCompute is an Infrastructure-as-a-Service (IaaS) cloud based solution that quickly provides the variable computing power required to meet changing business needs, exactly when needed. Managed through a self-service Web portal that offers on-demand business-class controls, InstaCompute allows IT customers to dynamically add or remove virtual servers, storage capacity and metered Internet connectivity.
